

Active 1[®]

Active 1 is an acidic, medium duty, low foaming liquid and de-scaling agent.

This product is highly effective in removing oxides, light rust, and heat and mineral scale from a diverse array of surfaces. Specifically designed for automatic and Clean-In-Place (CIP) applications, it is particularly well-suited for industries such as food and beverage, pharmaceuticals, and chemical manufacturing. It not only cleans but also sanitizes equipment, helping to uphold hygiene standards and prevent contamination. Importantly, it is safe for use on food preparation surfaces and any areas that come into direct contact with food.

Product benefits

Low Foaming

Descaling

Removes Oxide

Product Use

- Always wear protective clothing, eye protection and gloves while using the product.
- Adhere to the instructions for proper handling and dilution.
- Avoid mixing with other chemicals.
- Ensure the cleaning area is well-ventilated during use to prevent inhalation of harmful fumes or vapors.

First Aid

- If skin contact occurs, rinse the affected area thoroughly with water.
- For eye contact, rinse with water for several minutes, remove contact lenses if applicable, and continue rinsing. Seek medical attention if you experience pain or redness.
- If the product is ingested, seek medical assistance immediately.

Storage

- Keep in a tightly sealed container in a cool, dry, well-ventilated space, away from direct sunlight and incompatible substances.
- Store out of reach of children and pets.

Disposal

- The product can be neutralized by diluting it with plenty of water, reducing its harmfulness before disposal.
